

Maggie & Betsy, Jack and Merritt Explore the Children's Room - by Maggie Noble

Hubbard Public Library is an essential tool for our homeschooling family. We are greeted with smiling eyes and even clapping! We are handed a craft for each child that is thoughtfully put together by the library staff. The resources from books to games to media seems limitless. But it is the library staff that keeps us coming across state lines to Hubbard. Joy for learning and sharing emanates from each librarian. We are lucky to have found you!
